ACORDES

verse 1:

Am  
 Under sub-urban sky,  
 Dm                  Am  
 where life is bleeding.  
 C                  G  
 Where concrete skies are grey,  
 Dm                                  G  
 there's plenty of room for dreaming.

verse 2:

Am  
 I still keep coming here,  
 Dm                  Am  
 follow those traces.  
 C                  G  
 I travel back in time,  
                 Dm                  G  
 remember all those places.

It feels like I've never left,  
 the house's still standing.  
 Down by the river where,  
 the dreams are neverending.

F                  C  
 You find me, you find me  
 G  
 you find me by the river.  
 F                  C  
 You find me, you find me,  
 G  
 you find me where the river flows.

Under the silent moon,

this industrial city.  
Is heartless even though,  
the life's been not that pretty.

I still keep coming here,  
to that old river.  
To find my roots just where  
the future lives forever.

Chorus:

Am F C G  
B-PART:By the river, where dreams will never die.  
Am F C G  
By the river, under sub-urban skies.

SOLO: (verses)

Am F C G  
B-PART:By the river, where dreams will never die.  
Am F C G  
By the river, I look through children's eyes.

(Chorus) (x3 veces)
